

Empathy AI SAKURA

Empathy as Infrastructure for the Aging World

Ryuji Okayama | AGN LLC | Japan

The World is Aging

THE REALITY

1 in 3 older adults will face cognitive decline

THE IDEAL

Empathy is the cornerstone of effective dementia care

THE HUMAN LIMIT

Human caregivers have their own emotions and fatigue, making constant empathy unsustainable

A conviction gained through over 30 years of field experience

Ryuji
Okayama

Social Worker
Care Educator

AI has no emotions

That's precisely why it can offer boundless empathy

Tackling the Global Aging Crisis

Japan → Asia → The World

Empathy Technology

A glowing Earth is centered in the image, surrounded by a soft, pinkish-purple light. The background is filled with falling cherry blossom petals and a starry, ethereal glow. The text is overlaid on the Earth.

Empathy Should Be Infrastructure.
